

Dear Parent,

Greetings from Akshara !

As your child is one of our brightest students and we are confident of his/her success in Class X Board Exams.

In our opinion, Class XI-XII is a very crucial period in a student's academic progress and it is important for the student to start it on a strong foundation.

Since there is a marked increase in the academic difficulty level in Class XI, it helps if the child undergoes a course in which:

- previous fundamental concepts are revised to fill the gaps in his secondary education and
- some basic key concepts of the secondary subjects are gradually introduced

To meet this objective, we have planned a **Bridge Course in the school from 09th April to 26th April, 2019.**

Your child being one of our brightest student, we are offering a seat in this program.

The seats being limited we would like you to confirm your interest in the program by **05th April, 2019** by submitting the completed form in the School Office.

There will be a **nominal charge of Rs. 1500/-** for this program which will be adjusted against the Form & Registration Charges if your child takes admission in Akshara for Class XI.

Students can use the school transport on extra payment based on the route. School will not provide Breakfast and Lunch to the participants.

Regards,
Principal
